little cold day – little day / big cold, a little day

Allison Carter

A big cold, a little day a big hole, bigger than the thing the hole is in
little cold day, little sweater littler than the cold
a heart faces the wrong way by sonogram
a warm box with a soft interior, the hole bigger
girl littler than the hole
a deep hole, deeper than the hole
all day knitting for autumn wake up and knit go to bed and knit for her knit

fold

Little cold day - little day
big cold little day
gathering for hours the little break from rain
sweater with an extra sweater no coming out the eyes
about the little girl inside, little
sweater up ahead little girl decides that no coming out the eyes
little girl playing with a hole in the hole
what he knows about my little girl is not coming out the mouth
wants me to know that he knows chews on knowing
okay, he said it, left the house in an apron on accident
knows my little girl by her mouth hole

Each individual dig left an empty room a big hole, bigger than
the body the hole is in
Just so to go back

Handing her over hole, if only asleep, he knows what time and waits in the cold
left an empty room with what in it?
holding in both hands before placing a big hole, bigger than the thing the hole was in
little girl blanket little girl
then the hole, then a sweater
in a cavity bigger than the thing the cavity is in
an empty room with an empty bowl
an empty room with an empty empty

What do you do for her? the sourer than the milk apply some pressure
notice: when you unzip it take a walk back from the store
What do you think about living in the world a deep hole, deeper than the ground the hole is in, focus
I left her room upon an accident my little girl goes in it
can't do it can't hold them together - the weather, the premise, on accident

fold

There was a little break during which
each individual break, and so it goes
a wild look, a bag of groceries, the yarn spun,
and so it goes
an okay spin bigger than the hole
no coming out the mouth
no coming out the eyes no coming out into the big cold, bigger than the sweater the little girl,
littler than the cold is in, bigger in, bigger than the little in that the girl is big in, the hole hole

no handing her over complete unto, he knows a big hole bigger than the
also no coming out the cavity - he knows the cavity bigger than the thing the cavity
- the yarn - then later that day my little girl playing the yarn
an empty room with a little girl in it eyes snagging
snagging on the big cold
littler than little
littler than the little little
all the way accumulating to the very little little
